

WHAT MY WALL STREET CLUB IS

Real markets. Virtual cash. Zero financial risk to students.

My Wall Street Club is a browser-based investing platform for students. Prices, charts and portfolio values come from a live stock market data feed — but every student trades with virtual cash. No bank accounts, no brokerage, no real money, ever. Students learn how markets actually behave by making real decisions and watching real consequences, safely.

Live data

Real tickers, real prices, real market movement.

Virtual cash

Simulated portfolios only. No real funds, no risk.

Any device

Runs in a browser. No install, no IT ticket.

Teacher-led

Assign, group and track from one dashboard.

THE ACADEMY • 12-MODULE PROGRAM

A complete finance course students can actually finish.

Twelve sequenced modules of instruction and assessment. Each module pairs a short lesson with an auto-graded check and a hands-on investing exercise the student completes with live market data.

HOW A STUDENT PROGRESSES

- 1 Learn**
Short, plain-English lesson for the module's concept.
- 2 Check**
Auto-graded questions confirm understanding.
- 3 Apply**
A live-market exercise puts the concept to work.
- 4 Certify**
All 12 done = verifiable certificate of completion.

Works as an after-school club activity or as an in-class add-on to any economics or finance course.

WHY YOUR SCHOOL WANTS THIS

- Turnkey finance curriculum with no prep
- Applied learning, not passive worksheets
- Verifiable certificate for college applications
- Maps to national financial literacy standards
- Club, elective or add-on — your call
- One flat price for the whole department

Finishes with a verifiable digital Certificate of Completion

Signed by the Academy Director, carrying a unique certificate ID that anyone — including an admissions office — can verify online at mywallstreetclub.com/verify. Awarded with standing based on quiz average.

DISTINCTION 90%+

PASS completed

FOR THE TEACHER

Assign groups. Track everything in one dashboard.

Create a group for each class period or club, hand out its join code, and watch the whole cohort's progress in a single unified view — module completion, quiz averages, exercise activity and certificate status, per group.

1	Create a group One per class period or club. Name it, and you're done.	~1 MINUTE
2	Share the join code Students enter it once to enroll. No account admin for you.	~2 MINUTES
3	Watch the dashboard Live per-group progress: modules done, averages, who's stuck.	ONGOING, NO PREP
4	Issue certificates Completion triggers the certificate; you confirm and share.	END OF TERM

UNIFIED GROUP DASHBOARD		ILLUSTRATIVE VIEW		
GROUPS	STUDENTS	AVG MODULES DONE		CERTIFICATES ISSUED
4	96	7.4 / 12		23
GROUP	STUDENTS	MODULES	AVG SCORE	CERTIFIED
Period 2 • Econ	26	9 / 12	88%	11
Period 4 • Business	24	7 / 12	84%	6
Period 6 • Personal Fin.	22	6 / 12	81%	4
Investment Club	24	8 / 12	91%	2

Illustrative view. Group setup and dashboard access are configured with your school during onboarding.

Privacy: student email and progress only.

No payment details are collected from students, and no real money or brokerage account is ever involved.

THE 12 MODULES

About 45 minutes each. One a week is a semester.

Each module is a ~15 min lesson with an auto-graded check, plus a ~30 min live-market exercise – about one class period. Two modules a week makes a quarter-long elective; one a week fills a full semester.

01 Money & Personal Finance Foundations SPENDING & SAVING 15 + 30 MIN	02 Economics Essentials FINANCIAL DECISION MAKING 15 + 30 MIN
